MISSION + VISION

At Veliz, we are called to develop each individual's potential, creating opportunities to become change-agents in our communities.

By 2032, we will be the firm that creates infrastructure that supports the development and transformation of the communities in which we operate. We envision our people as the experts leading the building process. And will partner with 12 clients that share the same level of commitment and value the culture our teams create.

DELIVERY METHODS

CONSTRUCTION MANAGEMENT

GENERAL CONTRACTING

CONSTRUCTION MANAGER-AT-RISK

DESIGN-BUILD | DESIGN-BID-BUILD

SERVICES

DESIGN-BUILD

We work closely with our customers in planning, designing, cost control, scheduling, and site investigation. Our project managers are members of the Design-Build Institute of America (DBIA).

LEAN CONSTRUCTION

Our project managers and superintendents, as members of the Lean Construction Institute (LCI), apply Lean methodologies and procedures in our projects to maximize value and minimize waste.

JOB ORDER CONTRACT (JOC)

We hold Job Order Contracts with Texas Tech University, UT Austin, and Region 19 ASC. Through JOCs, customers significantly expedite the procurement process saving valuable time and resources.

SELF-PERFORM

We deliver greater value to our customers through our dedication and ability to perform specific critical trades such as concrete and interior finishes.

HEALTHCARE CONSTRUCTION

Our extensive knowledge in medical construction enables us to optimize the planning, design, construction and facilities management in the healthcare industry. Our project managers are members of the American Society of Healthcare Engineering (ASHE).
